A Bibliography of Materials on Behavior Management in the Home and Community

NICHCY receives hundreds of requests for information about ways to address behavior problems and behavior disorders of children with disabilities. We have compiled this bibliography to help you identify the many materials available on the subject of behavior disorders and behavior management.

By no means exhaustive, this list identifies resources that may be useful for managing behavior problems in the home and community. (A separate bibliography is available on behavior management in schools.) You may identify additional resources by looking in the bibliography/reference sections published in any of the materials listed below, by contacting organizations that address issues related to behavior, by checking the materials your local library has available, or by checking local bookstores for additional materials.

To assist you in obtaining the materials listed in this bibliography, the names, addresses, and telephone numbers of publishers are provided (in alphabetical order) at the end of this document. If you are interested in obtaining a resource, it's a good idea to contact the publisher and find out the latest payment and ordering procedures. These addresses and telephone numbers are, of course, subject to change without notice.
